News beats

The future of the Internet

On April 28 it was announced that over 60 governments signed a new [Declaration for the Future of the Internet](#). It points not only to **urgent technology issues we must address**, but to the many varied **human needs** that require our generation to step forward and act collectively to protect human rights on the internet.

Defending Ukraine

Just recently, Microsoft published a new intelligence report, **Defending Ukraine: Early Lessons from the Cyber War**. The report reveals **new information about Russian efforts** including an increase in network penetration and **espionage activities** amongst allied governments, non-profits, and other organizations outside Ukraine. This report also unveils detail about sophisticated and **widespread Russian foreign influence operations** being used, among other things, to undermine Western unity and bolster their war efforts. ***Read the report [here](#).***

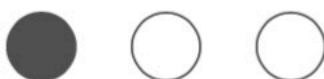

Spotlight: Microsoft Store

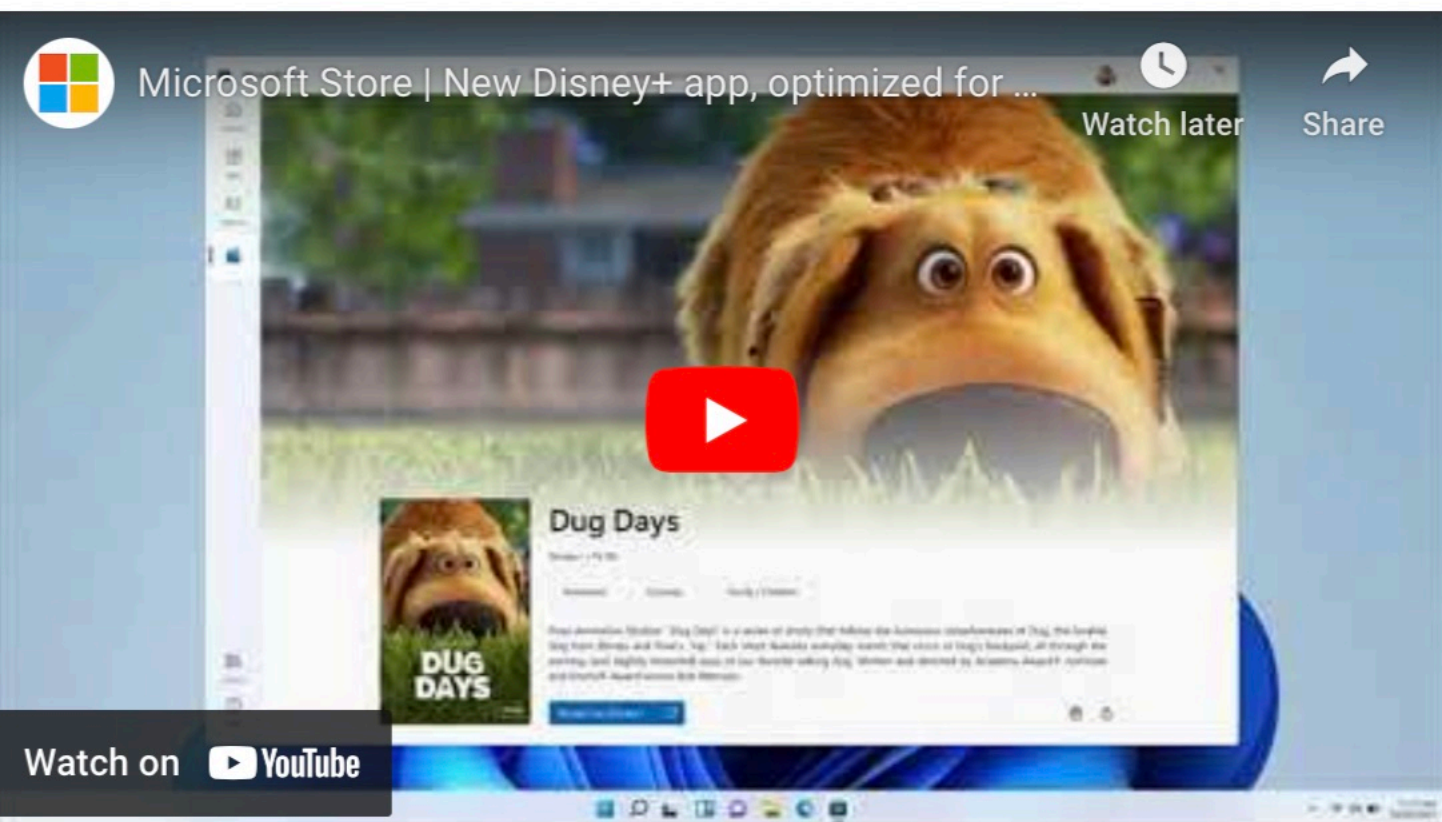

The best apps and entertainment

Whether you're into music, news, pets, sports, gaming, or streaming—the Microsoft Store **connects you** with experiences that help you **do more of what you love faster than ever before**. Access content in the newly expanded catalog of apps, games, movies, and TV series from your **Android device, desktop PC, or tablet**.

Spotlight: Microsoft Store

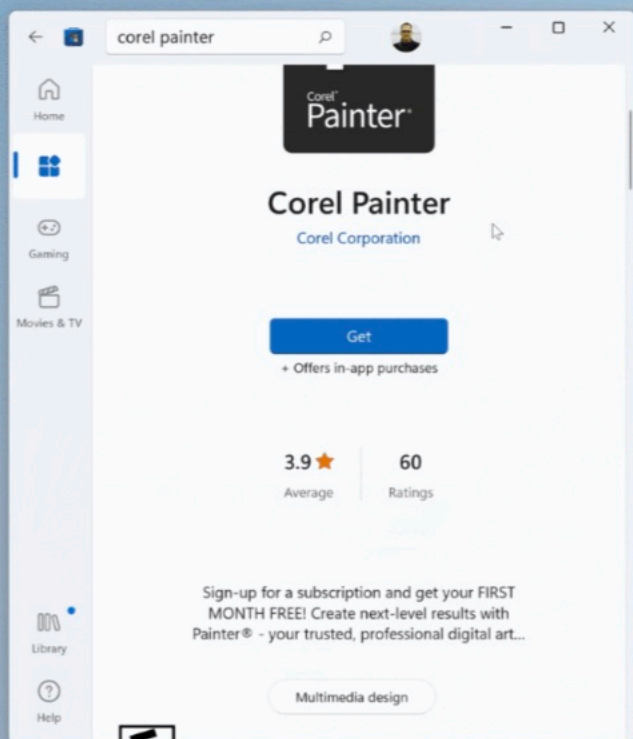

Stream entertainment

Looking for the latest in entertainment? Stream movies and TV on **Disney+, Amazon Prime Video, Netflix, Hulu, Pluto TV, Paramount+, or SlingTV.**

Then chat about it on your favorite social apps like **Discord, Reddit, Facebook Messenger, Twitter, or Telegram.**

Spotlight: Microsoft Store

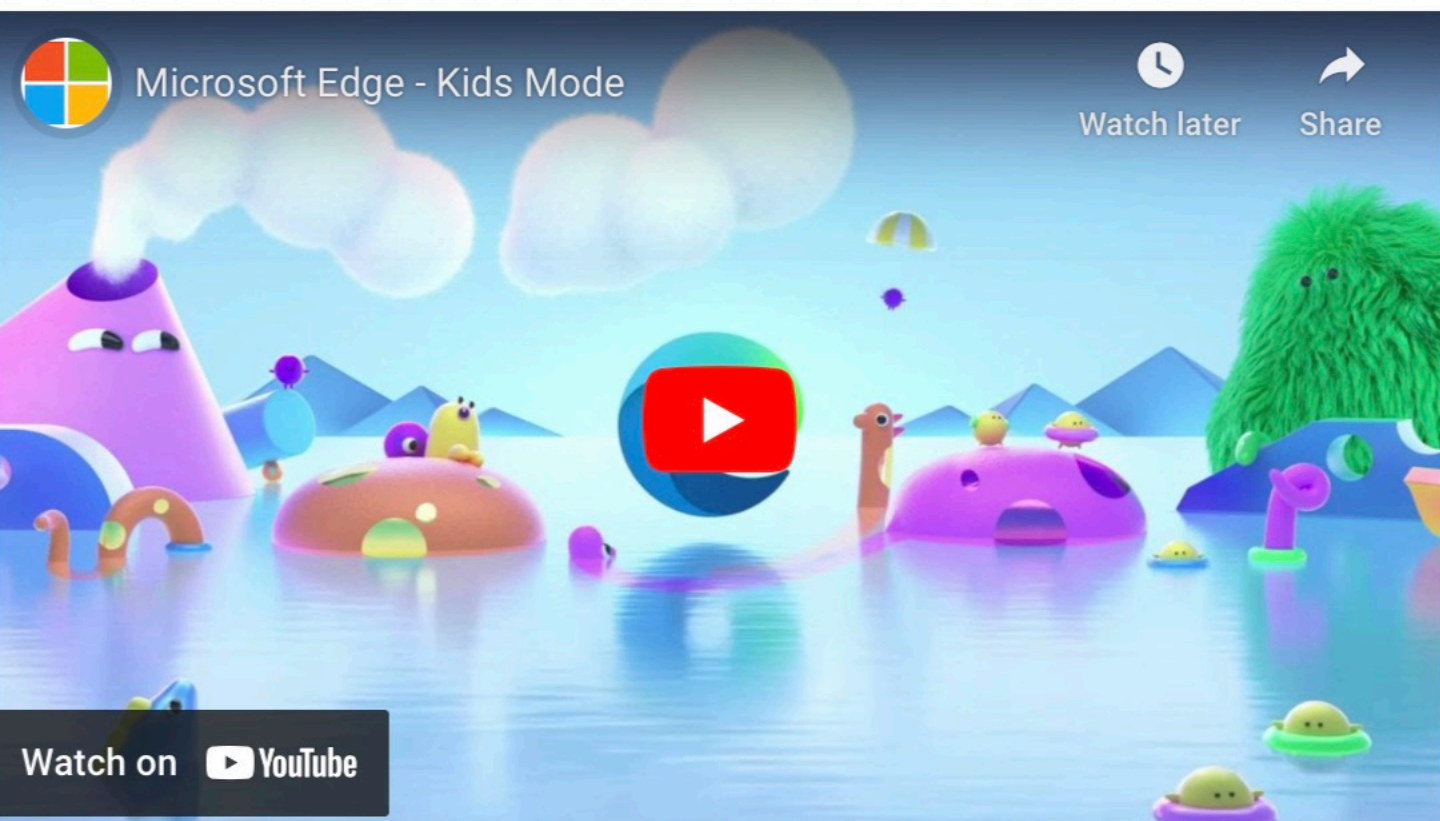

Do you like to create?

Feeling creative? Grab a pen (or just touch) and explore **Bamboo Paper**, **Corel Painter**, **Concepts**, or **Affinity Designer**. You can also check out **Microsoft 365 apps** like Word, Excel, and PowerPoint alongside third-party productivity and utility apps like Canva, Acrobat Reader DC, LibreOffice, and WinZip.

Tips: Kids Mode

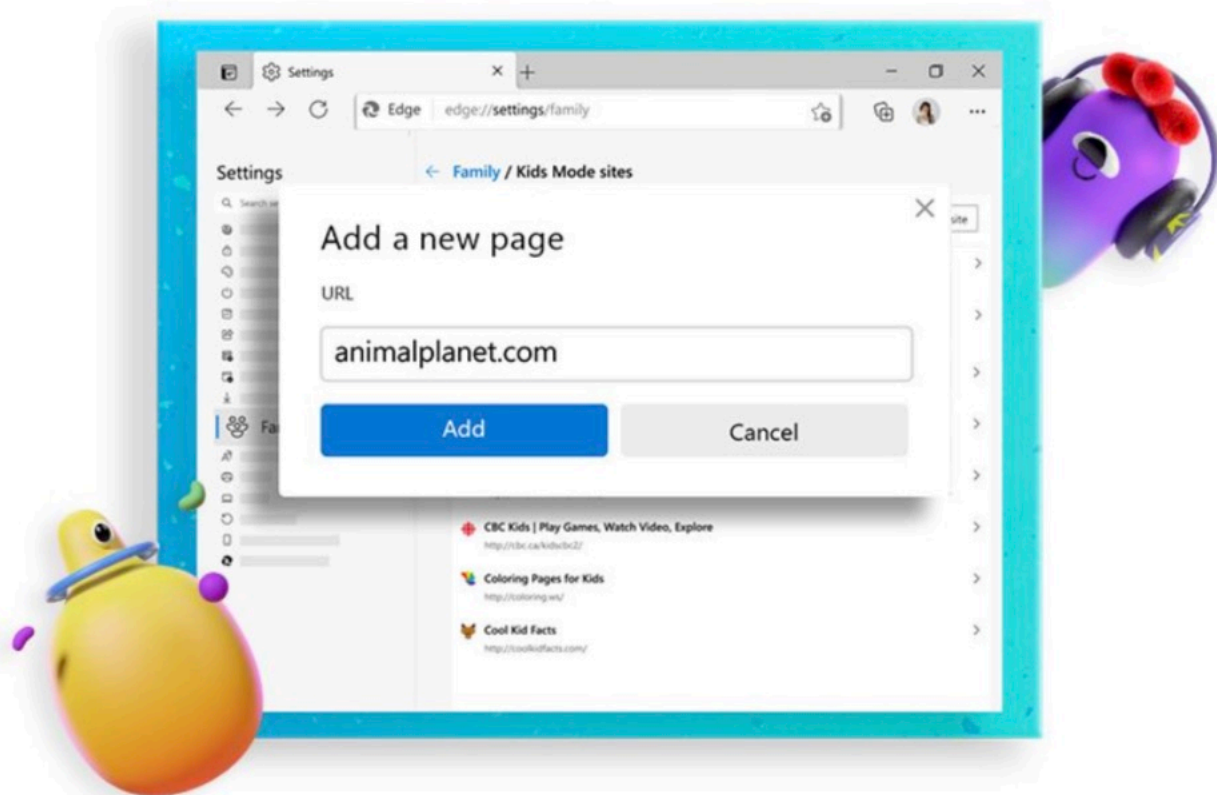

For children living and learning in today's world, using the Internet is often a necessity. But that doesn't mean it can't be a **safe and creative space** for them to **explore and learn**.

Let's take a look at some ways Microsoft Edge is helping keep kids safe online while giving parents peace of mind.

Tips: Kids Mode

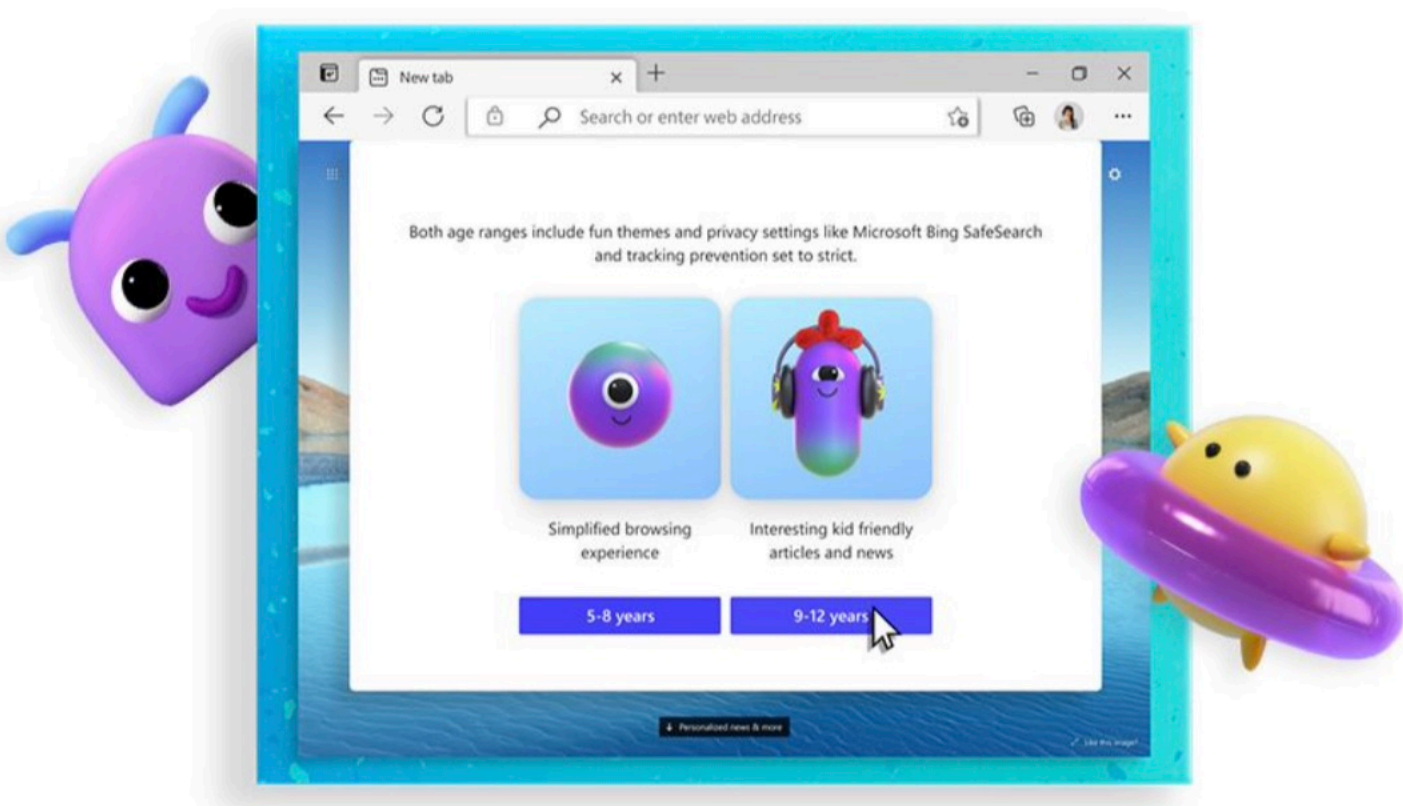

Privacy settings

While some Kids Mode features are enabled by default, others are customizable—like tracking prevention and Bing SafeSearch that help filter out inappropriate content from Bing search results. It also helps keep kids safe by not collecting data for Microsoft services.

[Learn more](#) ***about data collection in Edge.***

Tips: Kids Mode

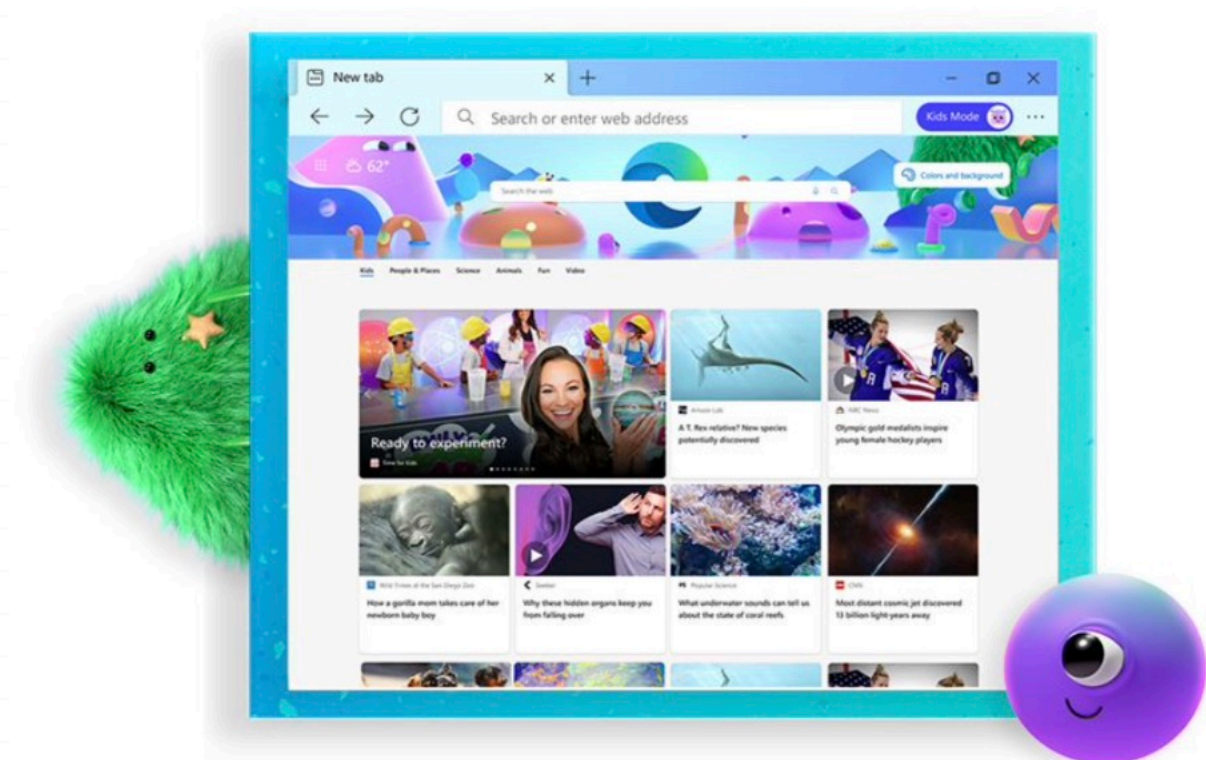

Age-appropriate content

Parents can choose the experience that best fits their kids' ages. Children ages 5-8 experience a more **simplified browser**, while kids 9 and older can access content that is more age appropriate for them. As they get older, simply change your age selection in **edge://settings/family**.

Tips: Kids Mode

Personalized and curated just for them

Kids Mode includes a built-in list of sites that parents can customize, while kids have the ability to personalize their home screens with **fun themes**. And to help them stay on top of current events, kids ages 9 and up can receive **news feeds** from kid-friendly publications.

The Inside Scoop

Since the first **Insider Preview build** was released over a year ago, Windows 11 has seen unprecedented feedback and engagement from the Insider community all across the world.

Thanks to their **energy and enthusiasm**, the **new Windows experience** brings everyone closer to what they love.

The Inside Scoop

Insiders' contribution to the Microsoft Store

From a **new search experience** to new ways to interact with **gestures** and more, **Windows Insiders were key contributors** to creating a new store that is **easier to navigate**, more entertaining to interact with, and better for developers to work with.

The Inside Scoop

If you're interested in helping **shape the next generation of Microsoft tools**, join the Windows Insider Community!

You'll enjoy **exclusive access** to new features, expert tips and insights, contests and events, and more.

We're for everyone

In case you missed it, World Refugee Day was June 20. **To help provide relief** where and when it is needed most, **Microsoft supports over 295,000 nonprofits** with funding, technology, and services to support their efforts.

One of these nonprofits is **Kids in Need of Defense** (KIND) that help unaccompanied minors arriving from Ukraine into other European countries. [Learn more](#) about **Microsoft's efforts** from Erik Arnold, Global Chief Technology Officer, Microsoft Philanthropies.
